Society headquarters building to be sold

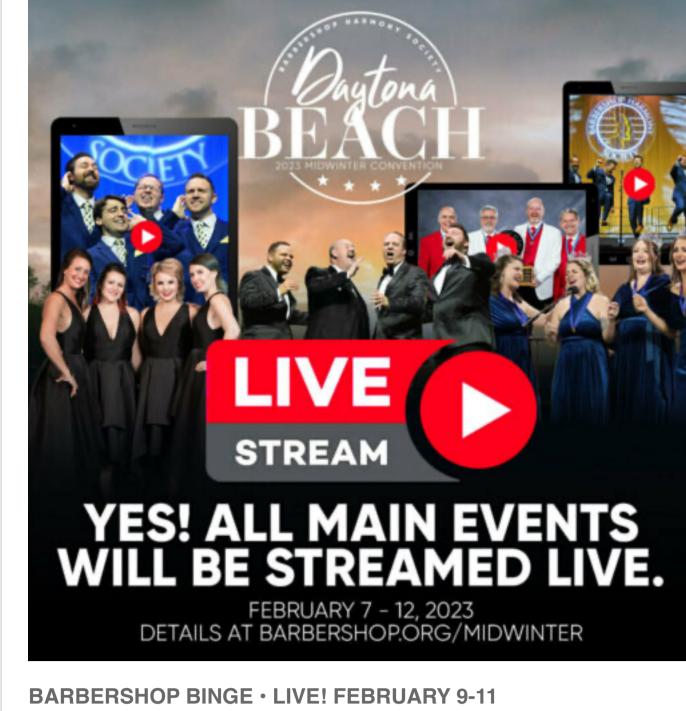

Offices to be relocated elsewhere in Nashville With Nashville being the nation's hottest real estate market, the Society Board is listing its headquarters building for sale. The building was purchased in 2006 for \$1.45 million; its value today is substantially higher. Plans are to move the headquarters elsewhere in metro Nashville.

"When we purchased the building, we saw it as the acquisition of an asset ...," said Alan Lamson, who leads a task force directing the sale and who played a similar role when BHS moved from Kenosha, Wisconsin. "We purchased a neglected, well-worn building with 'good bones' that could be renovated, meet our needs, and hopefully increase in value. The market has exceeded our expectations, and the day to take advantage of that is here.

Society President John Santora said sale proceeds will be invested to benefit barbershop singing communities for the long term.

"This isn't about an infusion of cash today, this year or next year," he said. "This is a strategic decision that will support barbershop singers for decades to come."
